Development Plans

Possible User Interaction Features:
- API Integration (Browser or Third-Party):
    - Google Maps API
        - Embeds an interactive Google Map showing the Duquesne Incline's location
        - The map will be embedded in the Plan Your Trip section to help visitors find directions
    - Form Validation API
        - Make sure that all required fields are completed before submission, validating email format, phone number, etc.
        - Will be implemented in the Mailing List sign-up form
- jQuery Implementation
    - Interactive Image Carousel for Gift Shop
        - Uses jQuery to create an interactive carousel displaying featured gift shop items
        - The carousel will show the selling items like the postcards, shot glasses, and custom shirts with transitions
- JavaScript DOM Manipulation / Event Handler
    - Dynamic Greeting
        - Displays a personalized greeting based on the current time
        - This function is called when the page loads
